

Bruce J. Crispin, DDS, MS

Biosketch Summary

Bruce J. Crispin, DDS, MS received a DDS and an MS in (Fixed Prosthodontics) from the University of Michigan. He has the **unique** combination of being a Diplomat of the American Board of Prosthodontics and an Accredited member of the American Academy of Cosmetic Dentistry. He is a Professor Emeritus at UCLA and an alumni member of Omicron Kappa Upsilon. He founded the UCLA Center for Esthetic Dentistry (first in the US) in 1987. There he started one of the **first** “Esthetic Mini-Residency Programs” (continuum) for practicing dentists that continues to be held at Esthetic Professionals. **He is the founder and current director of “Esthetic Professionals,” a state of the art hands-on and clinical dental education, patient care, laboratory and Hi-Tech distribution center in Tarzana, CA.** Dr. Crispin has published over 45 research and professional publications including the textbook *“Contemporary Esthetic Dentistry: Practice Fundamentals”* which has been translated into five languages. He has lectured extensively both nationally and internationally for the past 40 years. He is the recipient of two prestigious Evy awards and a president’s award from the American Academy of Cosmetic Dentistry for being an outstanding educator. The focus and scope of Dr. Crispin’s practice is on Esthetic Restorative Dentistry from Conservative Treatments to Reconstructions and Implants. His many hands-on programs are in great demand and provide great value to the dental practitioner.

Chad Crispin

Chad Crispin is Director and CTO at Esthetic Professionals in Tarzana, California. He is founder of EP-Distribution Center and Director of Business Development for Ep Laboratory and EP Education Center. His strengths are current equipment offerings, materials, and software. He specializes in digital integration use for the dental professional. EP Distribution has been installing, training, and supporting digital technology for nearly ten years and EP Education Center has been educating dentists for nearly thirty years. We take pride in the fact that, unlike other distributors, we use the equipment we sell in our clinics, laboratory, and education center
